SUMMARY

Versatile computer science student proficient in programming and web development, with a proactive approach to teamwork and continuous learning. Seeking opportunities to apply software development expertise in innovative projects and contribute to dynamic teams.

EDUCATION

Bachelor of Technology in Computer Science Engineering 2021-2025
Amrita Vishwa Vidyapeetham • India • 8.53
Intermediate 2019-2021
Narayana Junior College • Vijayawada • Andhra Pradesh • 92.9
High School 2018-2019
Narayana E.M School • Vijayawada • Andhra Pradesh • 9.8

PROJECTS

House Boat Management System 2022

- Crafted a Desktop Application that Facilitates user authentication, booking, and data access for houseboat owners and employees. Utilises Java Swing, JDBC, and PostgreSQL on Eclipse IDE.

Nutri-Check 2023

- Spearheaded front-end design for Nutri-Check, Seamlessly, linking with the backend systems, while also integrating AI advancements for personalised health insights
- Contributed to refining core functionalities like K-Calc and Vital-Scan, prioritising user-friendly design for enhanced tracking and recommendations

Edu-Aid 2023

- Enhanced last-minute academic preparations and deepened understanding of complex concepts with Edu-Aid, revolutionising students' academic needs by providing efficient AI-powered solutions.

Medi-Vault (Advanced Medical Data Storage system with AI-Powered Assistance) 2024

- Spearheaded the development of a groundbreaking system that guarantees ultra-secure, encrypted medical data sharing through dynamic access codes while harnessing the power of AI to provide real-time health insights, transforming patient care and empowering doctors with data-driven decision-making like never before.

SKILLS AND STRENGTHS

- Languages: C++, C, Java and JavaScript
- Databases: PostgreSQL, MongoDB
- Technologies: REST APIs, Flask, Node.js, Linux, Windows
- Soft Skills: Creativity, Team collaboration, Problem-solving, Time management, Adaptability, Decision Making

PROFESSIONAL ACCOMPLISHMENTS

1st Prize, Pegasus 2.0 | Kochi, Kerala

- Developed an AI project leveraging language model learning and speech recognition for efficient last-minute revisions.

Victory, Hack CEC Hackathon | Cherthala, Kerala

- Led a blockchain project to victory, creating a decentralised application for sharing vouchers across multiple hashes using ERC721.

Regional Level Advancement, Solving for India(Geeks for Geeks X AMD) | Bangalore, India

- Secured regional-level advancement in a healthcare-themed competition, surpassing 10,000 other teams.

COMMUNITY OUTREACH ACTIVITY 2023

Student Social Responsibility – I spearheaded a collaborative effort to design and deliver a comprehensive cultural education program for students in rural communities. This initiative addressed socioeconomic disparities by fostering a deeper understanding and appreciation for the diverse cultural heritage of India, enriching the lives of underprivileged youth.
